Residential

Un ambiente
multifunzionale,
vissuto ora come
luogo di privacy,
ora come occasione
di incontro,
ora come spazio
di intrattenimento,
svago o benessere.

L'architettura, in particolare quella della stanza da bagno, non può limitarsi alla progettazione di un volume anonimo, ma deve saper concedere esperienze e suscitare emozioni.

A multifunctional ambient,
living it sometimes like a private place,
sometimes like a meeting point,
sometimes like a fun and wellness place.

The architecture, especially in bathrooms, can't be an anonymous area project, it must give experiences and emotions.

Un ambient multifonctionnel,
vécu comme un lieu d'intimité,
un point de rencontre ou une place de divertissement,
loisir et bien-être.

L'architecture, notamment celle de la salle de bains, ne peut pas se limiter à la conception d'un volume anonyme, mais doit donner des expériences et susciter des émotions.

INTRODUZIONE INTRODUCTION - INTRODUCTION

AQUAelite contract solutions propone risposte dedicate per varie tipologie di progetti - hotels, centri benessere, private villas e yachts.

I tecnici di AQUAelite Lab collaborano con architetti e designer per trovare le soluzioni ideali in differenti ambientazioni utilizzando prodotti standard da catalogo o creandoli ad hoc.

AQUAelite contract solutions purpose dedicated answers for various projects - hotels, wellness centre, private villas and yachts.

AQUAelite Lab technicians works with architects and designer to find out ideal solutions in different ambients using standard items from catalogues or creating new one ad hoc.

AQUAelite Contract Solutions propose une réponse dédiée aux Architectes et Designers pour trouver des solutions idéales dans les différents contextes, en utilisant des produits standard sur catalogue ou créés à dessein.
